- Fleet Management

6. Protect Your Assets

- Ford Pro Insure²
- Warranty
- Extended Service Plans
- Protection Technology
- Potentially Lower Insurance Costs

1. Based on S&P Catalyst for Insight, Total Fleet registrations, Cars-Truck combined using Advanced Vehicle Type: Electric, CY 2024. 2. Ford Pro Insure is a brand of commercial auto policies issued by The American Road Insurance Company ("TARIC") (NAIC 19631), an admitted insurance carrier and subsidiary of Ford Motor Company and Ford Credit. Information provided is subject to TARIC's privacy policies (fordpro.com/privacy). Not available in all states and situations. Coverage subject to policy terms and conditions.

Who We Are

Ford is **#1 in commercial vehicles** for 40 consecutive years.¹ Ford Pro™ is a Productivity Accelerator for businesses of all vocations and sizes. Together, we can help your business thrive no matter what your needs are.

Our **versatile vehicle lineup** has you covered: gas, diesel, hybrid and electric vehicles come standard with an **embedded modem**, allowing them to be fully integrated with Ford Pro™ Intelligence software and services.

Vehicles throughout may be previous model years and may be shown with optional and/or aftermarket upfit equipment. Computer-generated images may be shown.

1. Based on S&P Global Mobility CY1985-2024 US TIPNet Registrations excluding registrations to individuals. TIP Registrations prior to 2010 do not include all GVW 1 and 2 vehicles.

Ford Pro™ by the Numbers

#1
America's

#1
America's
Largest Electric Fleet²

Ford is
#1 in Commercial Vehicles
for **40** Consecutive
Years³

Ford has been
America's Best-Selling
#1 Commercial Van Brand
for **46** Years⁴

Ford F-Series® is the
#1 Selling Truck/Pickup
for **48** Years
Straight⁵

1. Based on S&P Catalyst for Insight, Total Fleet registrations, Cars-Truck combined CY 2024. 2. Based on S&P Catalyst for Insight, Total Fleet registrations, Cars-Truck combined using Advanced Vehicle Type: Electric, CY 2024. 3. Based on S&P Global Mobility CY1985-2024 US TIPNet Registrations excluding registrations to individuals. TIP Registrations prior to 2010 do not include all GVW 1 and 2 vehicles. 4. Based on the total U.S. industry-reported sales (1979-2024 CY). Includes Ford E-Series; formerly called Econoline, van and chassis; Club Wagon; Transit Connect® cargo van and passenger wagon; Transit® cargo van, passenger van and chassis. 5. Based on 1977-2024 CY industry-reported sales.

Join America's Largest Electric Fleet¹

Work-Ready Vehicles + Commercial Charging + Comprehensive Support

Take advantage of the experience we have gained from **helping over 17,000 businesses** add electric vehicles to their fleets.

When you join America's Largest Electric Fleet, you get access to work-ready vehicles, commercial charging, and a comprehensive support system. Plus, locating chargers is easy thanks to our BlueOval[®] Charge Network – the **largest integrated public charging network** in North America.²

Mustang Mach-E[®]

E-Transit[™]

F-150[®] Lightning[®]

1. Based on S&P Catalyst for Insight, Total Fleet registrations, Cars-Truck combined using Advanced Vehicle Type: Electric, CY 2024. 2. Based on active charging stations in OCPI data from Ford's CMS partners, generated on 2/11/2025. Numbers subject to change. FordPass[®] app, compatible with select smartphone platforms, is available via download. Message and data rates may apply.

All in on America

Our national workforce and vehicle output prove **Ford is committed** to the American automotive manufacturing industry.

- Ford assembles the most vehicles in U.S.¹
- Ford employs more than 56,500 hourly autoworkers in the U.S., more than any other automaker²
- BlueOval® City: Equipment installation underway to prepare for next-generation electric truck

FORD MOTOR COMPANY.

How We Help

Nearly 130,000
Fleet Customers

Every business, regardless of size and strategy, thrives with an **efficient workforce** with low expenses and more uptime.

Ford Pro™ can help small businesses, commercial and government customers achieve this with **hardworking vehicles** and easily integrated **technology solutions** – regardless of industry or vocation.

What We Offer

Ford Pro™ is a one-stop shop for all your business needs. You may be looking for vehicles, but integrating with other products and services can **cut out inefficiencies** from multiple suppliers or software systems, helping to **streamline your business**.

Vehicles & Upfits

A comprehensive lineup of trucks, vans, police and livery vehicles – purpose-built for commercial customers. Gas. Diesel. Hybrid. Electric. Or all of the above.

Charging

The right hardware, software and strategic solutions for depot, workplace, home and public charging as you transition your fleet to electric vehicles.

Financing

For vehicles, upfits/conversions, charging infrastructure and municipalities. Guided by experts to help you secure the funds you need.

Service

Mobile Service¹ and dedicated Commercial Vehicle Centers take maintenance from reactive to proactive, while scheduled maintenance can potentially help lower your costs.

Software

Delivers key data insights from your vehicles and daily use, to help you manage your fleet more effectively and efficiently.

Built by Ford. **Backed by Ford.** End to end.

1. Ford Pro Mobile Service is offered by participating dealers and may be limited based on availability, distance, or other dealer-specified criteria. Does not include parts or repair charges.

How it Works

Find the right **solutions** for your business by combining products with the Ford Pro™ Intelligence platform.

Improve uptime with our innovative software and convenient service options

Simplify your operations with streamlined financing and digital fleet management

Prioritize the security of your fleet and drivers with our exceptional in-vehicle technology, connected software and services

Transition your fleet to electric with work-ready vehicles, commercial charging, and comprehensive support throughout the electrification process

Connect it All with a Ford Pro™ Account

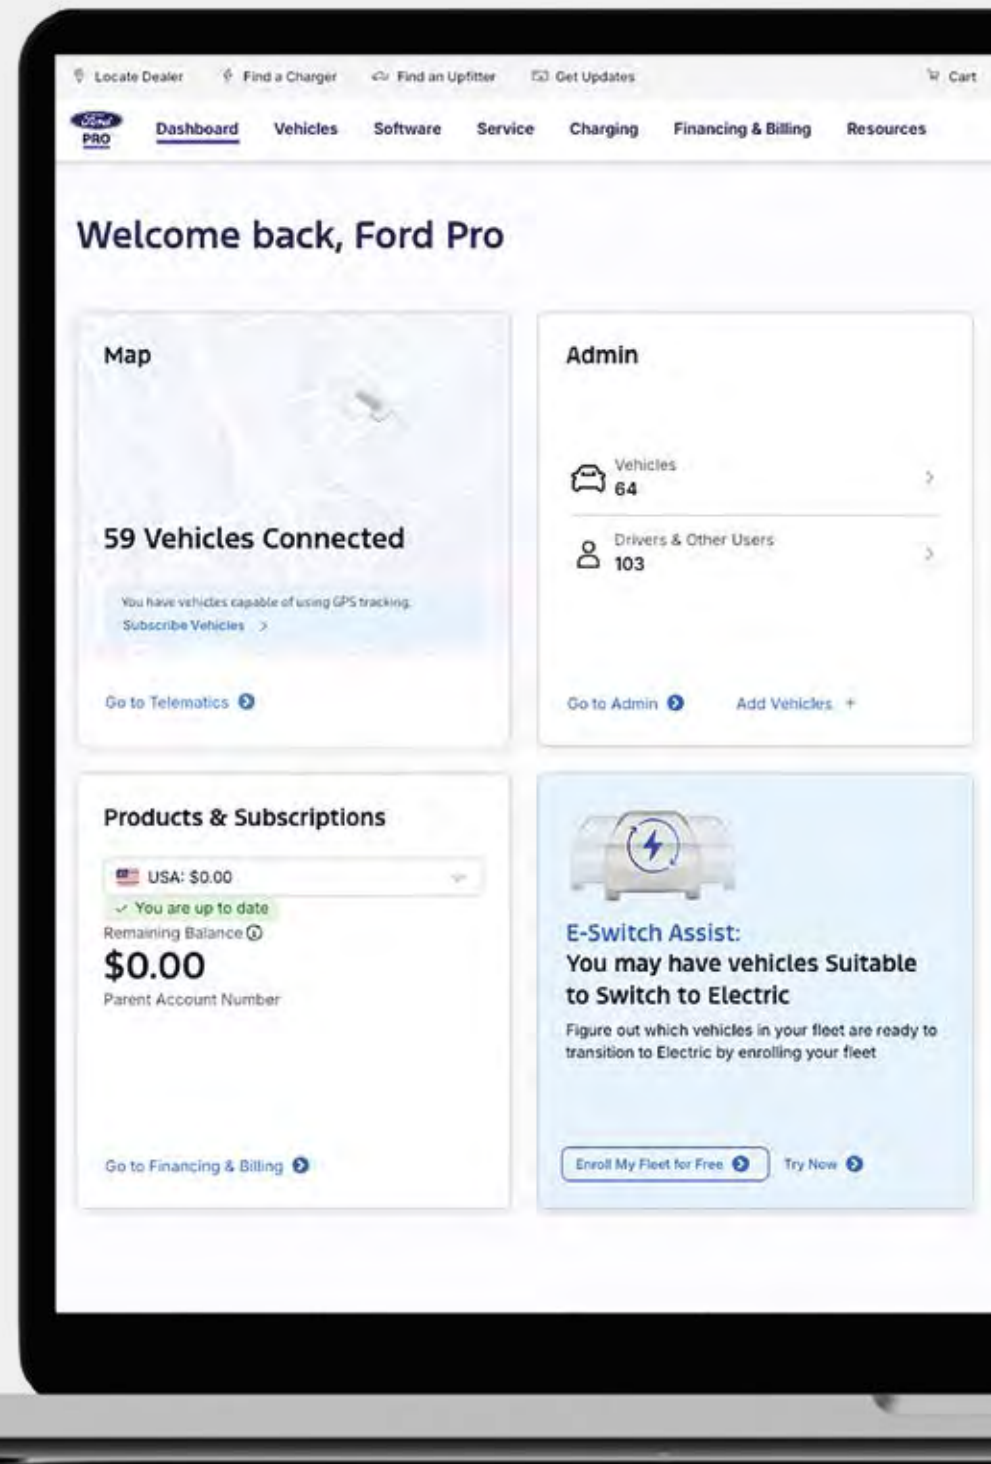

With a **Ford Pro Account**, you can go to FordPro.com to access all of your connected services and software products.

And while you can register for a Ford Pro Account with or without a **Fleet Identification Number (FIN)**, having a FIN will give you access to exclusive fleet management benefits on FordPro.com.

Once you **activate the modems** in your vehicles and enroll your VINs, our Ford Pro Intelligence software and services can help anticipate vehicle maintenance, consolidate your fleet reports and billing, help manage a mixed or all-electric fleet, and more.

Get Started

Screens shown are subject to change.

Let Ford Pro™ Accelerate Your Productivity

"All of **the products that we utilize with Ford Pro just make everything more efficient for us.** We have everything in one house so we're not having to store things in multiple locations or on spreadsheets anymore. It's all right there at our fingertips. We can run reports on anything and everything you can imagine fleet-wise, and we make better decisions as a company."

– **Jessica Cox, VP, Corporate Services, Grade A Construction**

"Just having the idea that **we can get everything under one roof,** that's a game changer for me."

– **James Hardin, Fleet Manager, Pieper Electric, Inc.**

"What sets Ford Pro apart from other OEMs is having that **all-in-one accessibility.** From a reporting aspect to EVs to Ford Pro Charging to E-Telematics, there's a lot of different tools that we utilize to run our fleet effectively."

– **Chris Wessel, Director of U.S. Fleet, DHL Express**

Fit the Job With the Right Vehicles

Ford Pro™ offers **class 1-7 commercial trucks and vans** with available upfits, tech, and safety and security features. If equipped with an embedded modem, the vehicle can be fully integrated with **Ford Pro Intelligence** software and services.

The Power is Yours

You know your business better than anyone else – and we know which Ford Pro™ vehicles are best for your line of work.

Our full range of powertrain options across **gas, diesel, hybrid and all-electric** are supported by innovative software and vehicle services, with safety and security features that help keep your drivers on the road. They also provide managers with **key vehicle data**, helping to maximize productivity for every working hour.

Safety & Security

Regardless of what your fleet needs, rest easy knowing vehicle safety and security is top of mind during our design process.

Detecting Potential Accidents

In addition to handling and braking capabilities, a number of available Ford technologies¹ can benefit drivers by helping them control the vehicle or alerting them if a potential collision is detected. These technologies can support routine driving tasks by helping drivers feel confident on the road.

Assisting Drivers

Our available driver-assist technologies¹ will continue to advance to provide drivers more support in certain situations, such as when changing lanes, in traffic jams and on freeway trips. The driver will always need to remain engaged and ready to take control, if required.

Protecting Occupants

Many factors influence a vehicle's crash performance, including the design of the vehicle and the use of safety equipment. Our commitment to advancing vehicle safety includes research and development of technology that helps further enhance occupant protection in a wide variety of crash circumstances.

Responding to Crashes

One method of assisting emergency responders to reach the scene of a vehicle crash quickly is through in-vehicle emergency call systems and post-crash notifications, like 911 Assist² and the SOS Post-Crash Alert System.³ These systems can help occupants summon assistance in the event of an accident.

Encouraging Safe Driving

Driver behavior can be a contributing factor in many vehicle crashes. We developed and support an array of programs and technologies that help encourage safe behavior on the roadways, for both experienced and novice drivers.

Managing Vehicle Safety

We design and manufacture our vehicles to achieve high levels of vehicle safety for a wide range of people over a broad spectrum of real-world conditions. Vehicle safety is overseen by our Vice President of Environmental and Safety Compliance.

1. Driver-assist features are supplemental and do not replace the driver's attention, judgment, and need to control the vehicle. It does not replace safe driving. See Owner's Manual for details and limitations. Feature availability varies by model. 2. The vehicle's electrical system (including the battery), the wireless service provider's signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC³ and the 911 Assist feature enabled, in order for 911 to be dialed. When the feature is ON, 911 Assist uses your paired and connected mobile phone to assist occupants to contact emergency services by dialing 911 if your airbag deploys or, on certain vehicles, if the emergency fuel pump shut-off is activated. Aftermarket on-board diagnostic devices may interfere with various vehicle systems including 911 Assist. To avoid interference, remove the device or contact the device maker for more information on compatibility. 3. SOS hardware may become damaged, or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner.

Pickup Trucks

The BUILT FORD TOUGH® label is tried and tested every day by our impressive lineup of Ford Pickup Trucks. Regardless of the powertrain you need to get the job done, our trucks have the capability to get you there, the convenient tech to do your work on the go, and the comfort to keep drivers happy.

1. Cargo and load capacity limited by weight and weight distribution. 2. Horsepower, torque and payload are independent attributes and may not be achieved simultaneously. 3. Calculated via peak performance of the electric motor(s) at peak battery power. Your results may vary. When properly equipped. Horsepower and torque are independent attributes and may not be achieved simultaneously. 4. When properly equipped. 5. Max payload varies and is based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. 6. Based on full charge. 2025 Ford E-Transit Enhanced Range Cargo Van Low Roof model demonstrated range reflecting current capability based on testing consistent with U.S. EPA MCT drive-cycle methodology (<https://fuelconomy.gov/feg/pdfs/EPAtestprocedureforEVs-PHEVs-11-14-2017.pdf>) at ALVW (Adjusted Loaded Vehicle Weight). Medium Roof and High Roof models projected range reflecting capability based on CAE analytical adjustments from tested vehicle and adjusted for roof height. Actual driving range varies with conditions such as external environment, vehicle use, upfits and alterations, vehicle maintenance, high-voltage battery age and state of health. 7. Available on select models. Restrictions may apply. See your dealer for details.

Available Packages⁵

- 60th Anniversary Package
- Bronze Appearance Package
- California Special Package
- Ford Co-Pilot360® Assist+
- GT Performance Package
- Mustang Dark Horse Appearance Package
- Mustang Dark Horse Handling Package
- Mustang Nite Pony Package
- Security Package
- Wheel & Stripe Package

1. Cargo and load capacity limited by weight and weight distribution. 2. When properly equipped. Horsepower, torque and EPA-estimated fuel economy ratings are independent attributes and may not be achieved simultaneously. 3. Horsepower and torque ratings based on premium fuel per SAE J1349® standard. Your results may vary. 4. Actual mileage will vary. 5. Available on select models. Restrictions may apply. See your dealer for details.

Cutaways & Chassis Cabs

The many available cutaway and chassis cab offerings from Ford give your business a blank slate to build on. No matter which you choose, you'll get the hardworking and reliable BUILT FORD TOUGH® vehicles your fleet can rely on.

1. Eligible (2022 and 2023 MY) vehicles receive a complimentary three-year trial of Ford Pro E-Telematics services, and eligible (2024 and 2025 MY) vehicles receive a one-year trial that begins on the new vehicle warranty start date. Requires modem activation. Terms and conditions apply. Telematics service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Annual service contract is required for E-Telematics service after trial. Call 1-833-811-3673 or go to FordPro.com to activate E-Telematics service. 2. Requires a Public Charge Management subscription.

2025 Ford Transit® Cutaway & Chassis Cab

T-250, T-350, T-350 HD

11,000 lbs.

Max. Available GVWR¹

15,000 lbs.

Max. Available GCWR¹

6,461 lbs.

Max. Available Payload^{2,3}

Key Details

- 2 engine choices.
- 3 wheelbase options (138", 156", and 178").
- Available Intelligent all-wheel drive (AWD).

- Standard embedded modem with a no-cost Ford Pro™ Telematics Essentials⁴ subscription.

Key Features

Standard Features

- 12V powerpoints (2)
- AdvanceTrac® with RSC® (Roll Stability Control™)
- Airbags⁷ – Driver and front-passenger front, front-seat side and Safety Canopy® System side-curtain
- Alternator – 250-amp
- Audio – AM/FM stereo with 4" multi-function display
- Auto High-Beam Headlamps
- Autolamp (Automatic On/Off Headlamps)
- Autolamp rain-sensing windshield wipers
- Back-of-cab window (Chassis Cab)
- Base Frontal Area Limitation
- Cruise control with adjustable speed limiter

- Engine – 3.5L PFDi V6 gas
- Flooring – Vinyl front
- Fuel tank – 25-gallon
- Hill Start Assist
- Individual Tire Pressure Monitoring System (TPMS; excludes available spare)
- Lane-Keeping System
- Passenger-side A-pillar grab handle
- Post-Collision Braking
- Pre-Collision Assist® with Automatic Emergency Braking (AEB) including Pedestrian Detection and Forward Collision Warning
- Push-down manual parking brake
- Remote Keyless Entry System
- Roof marker lamps
- Side Wind Stabilization
- SOS Post-Crash Alert System™

T-350 HD Chassis Cab. Oxford White. Optional and aftermarket upfit equipment.

Exterior Colors⁵

- Tilt/telescoping steering column
- Transmission – 10-speed Selectshift® automatic with overdrive

Available Features⁵

- 110V/400W AC power outlet
- Adaptive Cruise Control (includes Adjustable Speed Limiting Device [ASLD])
- Alternator – Dual
- DRW (dual rear wheels)
- Engine – 3.5L EcoBoost® V6 gas
- Engine block heater
- Front and rear split-view camera
- Fuel tank – 31-gallon extended-range (Long and Extended-Length)
- Heavy-duty front axle
- Vehicle Integration System 1.0

☆☆☆ Fleet Exclusives⁵

- Daytime running lamps
- Engine idle shutdown timer (10, 20 minutes)
- Fleet Fuel Economy Package⁸
- Fleet Safety Package⁸
- Orange safety belts
- Smart Acceleration Truncation
- Speed limiter (65- or 70-mph governed top speed)

1. When properly equipped. 2. Max payload varies based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. Always properly secure cargo. 3. Max payload of 6,461 lbs. on Cutaway T-350 HD DRW 138" Wheelbase with 3.5L EcoBoost engine with rear-wheel drive. 4. Complimentary product. Available on 2021 MY or newer vehicles and certain 2020 MY vehicles with embedded modem. Requires modem activation. Terms and conditions apply. Telematics service and features, and access to vehicle data, depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. 5. Available on select models. Restrictions may apply. See your dealer for details. 6. Extra-cost color option. 7. Always wear your safety belt and follow passenger airbag warning label instructions. 8. See order guide for complete package content.

- Base Frontal Area Limitation
- Black HID Headlamps with Autolamp (Automatic On/Off Headlamps)
- Cruise control with adjustable speed limiter
- Daytime running lamps (configurable)
- Flooring – Vinyl front
- Hill Start Assist
- Individual Tire Pressure Monitoring System (TPMS; excludes available spare)
- Intelligent Access with push-button start
- Lane-Keeping System
- Medium center console with integrated rotary gear shift dial
- Modified Vehicle Wiring System
- Passenger-side A-pillar grab handle
- Post-Collision Braking
- Pre-Collision Assist® with Automatic Emergency Braking (AEB) including Pedestrian Detection and Forward Collision Warning
- Push-down electric parking brake
- Remote Keyless Entry System

T-350 E-Transit Chassis Cab. Oxford White. Optional and aftermarket upfit equipment.

Exterior Colors⁵

- Roof marker lamps
- Side Wind Stabilization
- Sideview mirror delete
- SOS Post-Crash Alert System™
- Speed limiter (65-mph)
- SYNC® 4 with Enhanced Voice Recognition and 12" center stack touchscreen
- Tilt/telescoping steering column
- Transmission – Single-speed

Available Features⁵

- Adaptive Cruise Control (includes Adjustable Speed Limiting Device [ASLD])
- Front overhead shelf
- Mirrors – Power adjusting heated with integrated turn signals
- Rear video camera and prep kit⁸
- Vehicle Integration System 1.0

☆☆ Fleet Exclusives⁵

- Daytime running lamps
- Engine idle shutdown timer (10, 20 minutes)
- Fleet Safety Package⁸
- Multi-Function School Bus Prep Package⁸
- Orange safety belts
- School Bus Prep Package⁸
- Smart Acceleration Truncation

1. When properly equipped. 2. Max payload varies based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. Always properly secure cargo. 3. See Owner's Manual for important operating instructions. 4. Eligible (2022 and 2023 MY) vehicles receive a complimentary three-year trial of Ford Pro E-Telematics services, and eligible (2024 and 2025 MY) vehicles receive a one-year trial that begins on the new vehicle warranty start date. Requires modem activation. Terms and conditions apply. Telematics service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Annual service contract is required for E-Telematics service after trial. Call 1-833-811-3673 or go to FordPro.com to activate E-Telematics service. 5. Available on select models. Restrictions may apply. See your dealer for details. 6. Extra-cost color option. 7. Always wear your safety belt and follow passenger airbag warning label instructions. 8. See order guide for complete package content.

- Right Hand Door Delete
- Spare Tire and Wheel

1. Cutaway only. 2. Horsepower and torque ratings based on premium fuel per SAE J1349* standard. Your results may vary. 3. When properly equipped. Horsepower, torque, payload and towing are independent attributes and may not be achieved simultaneously. 4. When properly equipped. 5. Max payload varies based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. Always properly secure cargo. 6. Gross Axle Weight Rating is determined by the rated capacity of the minimum component of the axle system (axle, wheels, tires) of a specific vehicle. Front and rear GAWRs will, in all cases, sum to a number equal to or greater than the GVWR for the particular vehicle. Maximum loaded vehicle (including passengers, equipment and payload) cannot exceed the GVWR or GAWR (front or rear). 7. Available on select models. Restrictions may apply. See your dealer for details.

2025 Ford F-53 Motorhome Stripped Chassis

6	335	468 lb.-ft.
Wheelbase Choices	Max. Horsepower ¹	Max. Torque ¹

Key Details

- Wheelbases: 178," 190," 208," 228," 242" and 252."
- GVWRs: 18,000 lbs., 22,000 lbs., 24,000 lbs. and 26,000 lbs.

Key Features

Standard Features

- Air Conditioning Prep Package (valid FIN code required)
- Alternator – 210-amp³
- Auto headlamp activation sensor and wiring
- Battery – 78-amp-hr, 750 CCA, maintenance-free
- Brakes – Power, 4-wheel disc (hydroboost), 4-wheel Anti-Lock Brake System (ABS) (3 sensor, 3 channel) with traction control (19,500 lbs. GVWR and lower)
- Brakes – 4-wheel disc (Bosch® Hydro-Max™) power brake assist, 4-wheel Anti-Lock Brake System (ABS) (4 sensor, 4 channel) with traction control (19,500 lbs. GVWR and above)
- Daytime running lamps (configurable)
- Electronic Stability Control
- Engine – 7.3L PFI V8 gas
- Frame – Ladder-type, single channel, steel E-coated
- Fuel tank – 80-gallon aft-of-axle
- GVWR – 18,000 lbs.
- Headlamp switch and knob assembly
- Heavy-duty front track bar and rear stabilizer bar
- Hill Start Assist
- Horn – Dual-note
- Instrumentation – Speedometer, tachometer, trip odometer, oil pressure, coolant temperature, fuel gauge, transmission temperature gauge and indicator lights
- Message center
- P-OAT coolant – Low Phosphate Organic Acid Technology

- 5-Year/100,000-Mile Commercial Vehicle Gas Powertrain Warranty² available to commercial customers with a valid FIN code.

- Parking brake – Differential-mounted
- PRNDM21 range Indicator with conventional IP cluster
- Shock absorbers – 2.2" SACHS heavy-duty
- Springs, front and rear – Tapered multi-leaf
- Steering – Power, TRW, TAS 40 gear (includes cooler)
- Steering wheel – 17.5" black vinyl tilt/telescoping with speed control
- Transmission – TorqShift® 6-speed 6R140 automatic with Tow/Haul mode (default OFF)
- V8 badge

Available Features⁴

- Daytime running lamps (non-configurable)
- Engine block heater
- Electronic Stability Control Delete
- IP cluster with message center

☆☆☆ Motorhome Builder Exclusive⁴

- Suction line for the A/C System

1. When properly equipped. Horsepower and torque are independent attributes and may not be achieved simultaneously. 2. See your dealer for limited-warranty details. 3. Actual output is temperature and application dependent. 4. Available on select configurations. Restrictions may apply. See your dealer for details.

Available Features⁴

- Alternator – 240-amp
- Alternators – Dual heavy-duty (397-amp total with gas/357-amp total with diesel)
- Backup alarm – 102-decibel
- Batteries – 2 for a total of 1,800-CCA
- Body-builder wiring – Frame-mounted at end of frame
- Brakes – Air brakes (diesel only)
- Bumper, front – Full-width, chrome-plated steel
- Bumper, front – 3" extension
- Custom frame rail drilling options
- Daytime running lamps (non-configurable)
- Engine block heater
- Engine idle shutdown timer
- Frame options, including an Outer C-Channel reinforcement and available 20" frame extension
- Front fender-mounted auxiliary spotter mirrors

- Fuel tank – 60 gal. (gas only)
- Fuel tank – 65 gal. (diesel only)
- Fuel tank – Dual 115 gal. (diesel only)
- Gauge cluster with 8" display
- Grille – Fixed, black/gray
- Grille – Fixed, chrome surround
- Mirrors – Dual rectangular folding, sail-type sideview; available chrome caps; available power adjustment; available heater; 96" or 102" width spacing
- Mud flaps holder – Rear
- Seats – 30/70, 40/20/40, and 30/0/30 front seat combinations
- Speed limiter
- Trailer connection socket – 7-way, mounted at rear-of-frame
- Transmission – Power takeoff (PTO) provision with live drive capability (gas only)
- Upfitter switches – 4 located in center stack with connector access located in engine compartment
- Vehicle Integration System 1.0

2025 Ford Police Interceptor® Utility

5	118.0 cu. ft.	5,000 lbs.
Passenger Seating	Total Passenger Volume	Max. Available Towing ¹

Key Details

- Police Perimeter Alert provides 270° of enhanced situational awareness around the rear of the vehicle.
- Police Engine Idle enables officers to leave the engine running at the scene while preventing unauthorized use of the vehicle when outside it.
- Police Dark Car feature dims the instrument cluster and turns off all interior lights and chimes.
- Vehicle Integration System 2.0 streamlines integration of add-ons, such as extra lights and sirens, and helps manage equipment from inside the vehicle.

Key Features

Standard Features

- 100-watt siren/speaker prep kit
- 11" space between front seats for aftermarket consoles
- 4-wheel heavy-duty disc brakes with Anti-Lock Brake System (ABS) (police-calibrated)
- 8" color center stack "smart display" and 12.3" police instrument cluster display including calibrated digital speedometer
- Built-in steel intrusion plates in both front seat backs
- Console mounting plate – Front
- Dash pass-through for aftermarket wiring
- Electric power-assisted steering (EPAS) – Heavy-duty
- Embedded modem with a no-cost Ford Pro™ Telematics Essentials³ subscription
- Engine – 3.3L V6 Hybrid System
- Exterior key locks – Front doors and liftgate
- Flooring – Heavy-duty vinyl
- Full-size spare wheel/tire with TPMS

- Headlamps – LED low and high beams with Autolamp, integrated wig-wag functionality, and pre-drilled holes for user-installed warning strobes
- Intelligent 4WD with Terrain Management System™
- Liftgate release switch in overhead console with Police Accessory Independent Timed-Release Output (PAITRO)
- Manual Police Pursuit Mode (steering wheel switch)
- Personal Safety System® for driver and front passenger with dual-stage front airbags⁴, front-seat side and front-passenger knee airbags⁴, plus Safety Canopy® System with side-curtain airbags⁴ and rollover sensor
- Power distribution junction block with two (2) 50-amp battery power circuits
- Pre-Collision Assist® with Automatic Emergency Braking (AEB) with disable button
- Rear View Camera with rear camera on-demand
- Red/white task lights in front row and cargo area

Agate Black Metallic. Optional equipment.

Exterior Colors²

- Remote Keyless Entry System with 4 simple fleet keys and 4 key fobs
- Seats – Heavy-duty cloth front seats with slim-styled side bolsters, 6-way power driver seat with manual lumbar, and vinyl rear 35/30/35 split-fold bench
- Tires – 255/60R18 all-season BSW
- Transmission – 10-speed automatic (police-calibrated)
- Universal I/P top tray for mounting equipment
- Wheels – Heavy-duty 18" black steel with stainless steel center cap

Available Features²

- 100-watt siren/speaker
- 12.1" Integrated Computer Screen
- 18" full face wheel covers
- 18" painted-aluminum wheels
- 2nd-row cloth seats
- Badge delete
- Ballistic door panels
- Cargo storage vault
- Carpeted flooring with floor mats
- Daytime running lamps (non-configurable)
- Engine – 3.0L EcoBoost® V6

- Engine – 3.3L Ti-VCT V6
- Engine block heater
- Front warning auxiliary LED lights
- Front console plate delete
- Global lock/unlock
- Hidden door lock plunger with rear door controls inoperable
- Keyed alike keys
- Less rear aux air conditioning system
- Manual passenger seat
- Noise suppression bonds (ground straps)
- Rear auxiliary liftgate lights
- Rear bumper step pad
- Rear console plate
- Rear door controls inoperable
- Rear quarter glass side marker LED lights
- Rear spoiler traffic warning lights
- Rear View Camera 1/4 size picture-in-picture
- Sideview mirror side marker LED lights
- Solar tinted glass
- Spot lamp kits and prep kits
- Underbody deflector plate

1. When properly equipped. Max towing varies based on cargo, vehicle configuration, accessories, and number of passengers. 2. Restrictions may apply. See your dealer for details. 3. Complimentary product. Available on 2021 MY or newer vehicles and certain 2020 MY vehicles with embedded modem. Requires modem activation. Terms and conditions apply. Telematics service and features, and access to vehicle data depend on compatible AT&T network availability. - Police Engine Idle enables officers to leave the engine running at the scene while preventing unauthorized use of the vehicle when outside it.
- Police Dark Car feature dims the instrument cluster and turns off all interior lights and chimes.
- Vehicle Integration System 2.0 streamlines integration of add-ons, such as extra lights and sirens, and helps manage equipment from inside the vehicle.

Key Features

Standard Features

- 12" instrument cluster screen
- 2-speed Torque-On-Demand® 4x4
- Airbags⁶ – Front-seat side, and Safety Canopy® System side-curtain
- Alternator – 240-amp
- Built-in steel intrusion plates in both front seat backs
- Center console mounting plate
- Class IV trailer hitch receiver with 4-pin/7-pin wiring harness and Smart Trailer Tow Connector
- Column-mounted shifter
- Embedded modem with a no-cost Ford Pro™ Telematics Essentials⁵ subscription
- Engine – 3.5L EcoBoost® V6
- Engine-hour and engine-idle-hour meters
- Exterior key locks – Front doors
- Flooring – Black vinyl
- Personal Safety System® for driver and right-front passenger with dual-stage front airbags⁶

- FX4® Off-Road Package includes electronic-locking rear axle, Hill Descent Control, off-road-tuned shock absorbers, and skid plates on the fuel tank, transfer case and front differential
- Keys – Simple fleet keys (4)
- Power lug located underneath rear seat to accommodate Police upfitting; one (1) 80-amp battery ground circuit
- Pre-Collision Assist® with Automatic Emergency Braking (AEB) and temporary disable switch
- Rear View Camera with Dynamic Hitch Assist
- Red/white task lighting in overhead console
- Reinforced universal I/P top tray for mounting equipment
- Seats – Police-grade heavy-duty cloth, 8-way power driver and 8-way manual front-passenger with reduced bolsters and center-seat section deleted (40/blank/40 front seats)
- Seats – Vinyl rear 60/40 split flip-up bench

F-150 Police Responder. Agate Black Metallic. Optional and aftermarket upfit equipment.

Exterior Colors⁴

- Speedometer – Police-calibrated with digital readout
- SYNC® 4 with 12" center stack touchscreen
- Tires – LT265/70R18C BSW all-terrain
- Transmission – 10-speed SelectShift® automatic with Selectable Drive Modes
- Upgraded power 4-wheel vented disc brakes with Anti-Lock Brake System (ABS)
- Wheels – 18" steel

Available Features⁴

- 18" aluminum wheels
- Backup alarm system
- Badge delete
- Black platform running boards
- Chrome front and rear bumpers
- Daytime running lamps (non-configurable)
- Engine block heater
- Fixed rear window with privacy glass and defroster
- Flooring – Carpet with carpeted floor mats
- Flooring – Tray style floor liners

- Fog lamps
- Front console plate delete
- Integrated trailer brake controller
- Keys – Keyed alike
- Mirrors – Sideview with power/heated glass and integrated turn signal indicators
- Mirrors – Sideview with power/heated glass, integrated turn signal indicators, high-intensity LED security approach lamps, LED spotlights, and driver's side auto-dimming feature
- Mirrors – Manually folding/telescoping trailer tow with power/heated glass, turn signal indicators, high-intensity LED security approach lamps, and LED spotlights
- Power-sliding rear window
- Rear console plate
- Rear-door controls inoperable
- Remote Keyless Entry System with 4 key fobs
- Seat – 8-way power front-passenger
- Spot lamp kits and prep kits
- Wheel liners – Rear

1. When properly equipped. Payload and towing are independent attributes and may not be achieved simultaneously. 2. Max payload varies based on accessories and vehicle configuration. See label on doorjamb for carrying capacity of a specific vehicle. Always properly secure cargo. 3. When properly equipped. Max towing varies based on cargo, vehicle configuration, accessories, and number of passengers. 4. Restrictions may apply. See your dealer for details. 5. Complimentary product. Available on 2021 MY or newer vehicles and certain 2020 MY vehicles with embedded modem. Requires modem activation. Terms and conditions apply. Telematics service and features, and access to vehicle data depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. 6. Always wear your safety belt and follow passenger airbag warning label instructions.

Please contact your Ford Dealer for the most current inventory status. 2. 2025 Mustang Mach-E Premium RWD with available Extended Range Battery. EPA-estimated driving range based on full charge. Actual driving range varies with conditions such as external environment, vehicle use, vehicle maintenance, high-voltage battery age, and state of health. 3. Available cargo space behind 1st-row with seats folded flat. Cargo and load capacity limited by weight and distribution. Cargo capacity based on load floor in the lowest position. 4. Eligible (2022 and 2023 MY) vehicles receive a complimentary three-year trial of Ford Pro E-Telematics services, and eligible (2024 and 2025 MY) vehicles receive a one-year trial that begins on the new vehicle warranty start date. Requires modem activation. Terms and conditions apply. Telematics service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. Annual service contract is required for E-Telematics service after trial. Call 1-833-811-3673 or go to FordPro.com to activate E-Telematics service. 5. Based on manufacturer calculation using computer engineering simulations. Your results may vary. 6. Ford test data based on typical industry methodology using 1-ft. rollout. Your results may vary. 7. Available on select models. Restrictions may apply. See your dealer for details. 8. Extra-cost color option. 9. Always wear your safety belt and secure children in the rear seat. 10. Services require SYNC 4 or newer, activation through FordPass® app (subject to FordPass Terms), modem activation, and a Connected Navigation Service Plan. Equipped vehicles come with either a 90-day or up to 3-year Connected Navigation trial from new-vehicle warranty start date, after which purchase is required. Connected Services and features depend on compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features.

When properly equipped. Max towing varies based on cargo, vehicle configuration, accessories and number of passengers. 7. Available on select models. Restrictions may apply. See your dealer for details.

Upfits

Ford Pro™ can support your unique upfit needs with easy aftermarket installs, customized automatic protocols designed for your day-to-day operations through the available Vehicle Integration System 2.0, and available accessory packages tailor-made to specific vocations.

Upfit Support

Our convenient upfit process makes it easy to design and finance an upfit for a Ford Pro™ vehicle with the following services:

Ford Pro Upfitters

The many aftermarket upfitters across the country are approved and contracted by Ford to give you a seamless upfitting experience for specific vocations.

MOD Centers

Easily install aftermarket items in your vehicles at our trusted modification centers.

Graphics Availability

Stand out next to your competition with custom graphics on your fleet vehicles.

Explore Your Options

Commercial, accessibility and recreational upfits from Ford Pro.

[Explore Upfits](#)

Aftermarket equipment shown.

Factory-Installed Trade-Accessory Packages

These packages, available on 2025 and 2026 Transit® and E-Transit™ Cargo Vans, are designed with **specific vocations** in mind, and are tailor-made to shorten the order-to-delivery process.

Electrician Trade Package

Includes drawers and bins to store parts, and reels to hang bundles of wiring.

Delivery Package

Deep, large-capacity fixed or folding shelves intended for delivery services.

HVAC Trade Package

Featuring large shelves and storage bins, also specialized refrigerant storage racks and restraints.

General Contractor Package

A mix of multipurpose shelves, bins, drawers, and hooks.

Vehicle Integration System 2.0

The available Vehicle Integration System 2.0 **simplifies** the upfit process and **supports** seamless upfit integration with equipped vehicles.

Screens shown are subject to change.

A Closer Look

Here's how this system can help make your trucks work harder for you:

- Powerful hardware/software solution that enables **significant improvements** in accessory functionality and security for all applications.
- Instead of simply switching accessories on and off with legacy upfitter switches, you can now tie accessory functionality to **over 100 different vehicle signals** and activate them using up to 32 soft buttons available in the touchscreen, or by using custom logic.

Ready to Go

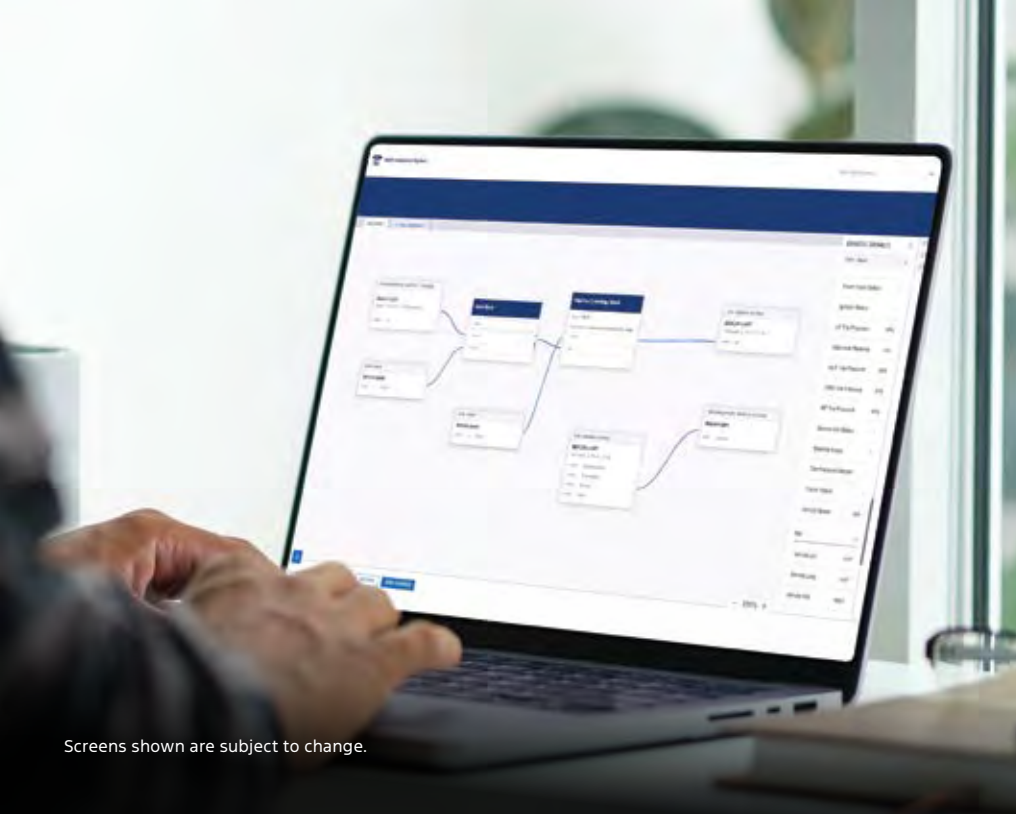

Seamlessly integrate your upfit with our factory multiplex device.

[Learn More](#)

Screens shown are subject to change.

System Benefits

Screens shown are subject to change.

- Makes accessories and equipment **intelligent** for added security.
- Factory integration helps reduce failure points for **increased uptime**.
- Allows further **customization** of the vehicle to suit your operation's needs.

Vehicle Integration System 2.0

Automatic Protocols

Sub Compartment Lock

Vehicle has readily available cabinet lock. For example, the factory key fob can now easily lock and unlock a service body.

Upfitter Idle

Safely leave vehicle idling on the job site while driver keeps their keys with them.

Lighting Control

Vehicle signals can control when auxiliary lighting is available. For example, auxiliary lights automatically shut off over a certain speed threshold.

Battery Depletion Protection

Automatically turn off accessories and prevent the need to jump-start a vehicle.

Vehicle Motion Inhibit

Accessories can now control when a driver can shift out of Park. For example, when a driver's seat belt isn't buckled or the liftgate isn't properly stowed.

Low Fuel Alert

Horn alert can notify individuals on the job site when an idling truck is low on fuel.

Plan For Electrification

Join America's largest electric fleet¹ with **work-ready electric vehicles**, custom commercial charging and comprehensive support.

1. Based on S&P Catalyst for Insight, Total Fleet registrations, Cars-Truck combined using Advanced Vehicle Type: Electric, CY 2024.

Work-Ready Electric Vehicles

The Ford Pro™ electric vehicle lineup boasts **impressive capability** and **performance**, just like our gas-powered vehicles. No matter your vocation or fleet size, we have an electric vehicle that can help move your business forward.

Electric Vehicle Lineup

Electric Vehicles (EVs)

Mustang Mach-E®

Pickup Truck

Plug-in Hybrid Electric Vehicle (PHEV)

Escape® PHEV
SUV

Are Electric Vehicles Right for Your Business?

Ford Pro™ has already helped over **17,000 businesses**¹ across industries and vocations electrify their fleet.

With tools like E-Switch Assist, we can help you determine which F-150® pickups and Transit® cargo vans in your fleet are ready to make the switch to all-electric options.

There are many factors that can impact the decision to add electric vehicles to your fleet, and our team has plenty of experience guiding fleets through these decisions. We're here to help you plan ahead and keep your business moving through the electrification process.

1. Ford Pro Internal Data as of 09/19/2024.

Before Your Business Goes Electric

Daily Range

How many miles do your work vehicles drive on a typical workday? Like gas-powered vehicles, electric vehicles have an estimated range based on a full charge.

Climate Factors

Extremely hot or cold temperatures can impact range, but scheduling preconditioning for your fleet can help preserve battery range. While a vehicle is plugged into a charger, preconditioning can bring the battery and cabin to an optimal temperature before the scheduled departure time.

Payload & Towing

If you need to carry or tow heavy loads, or if your route has hills or steep climbs, plan on shorter distances between charges.

Building Your Electrification Plan

Daily Charging Needs

With an electric vehicle, you'll charge overnight, during the day, or along the way. Charging may take place at your depot, at a driver's home, or at a public charging station. We recommend that all commercial customers have a daily charging solution (only using public charging as needed).

Charging Infrastructure

Whether your fleet needs to charge at a company depot or at drivers' homes, Ford Pro™ can help you find a comprehensive charging solution.

Driver Training

If your drivers need electric vehicle training, Ford Pro provides informative, easy-to-follow materials to help teach them smart driving habits that can deliver big benefits for your electric fleet.

Charger connector shown is previous generation or third party.

Benefits of Going Electric

Total Cost of Ownership

Electric vehicles can offer potential fuel cost savings and typically require less scheduled maintenance than conventional gasoline vehicles,¹ possibly saving your business money over the lifetime of the vehicle.

Zero Tailpipe Emissions²

Your new electric vehicles can help you reach sustainability goals without sacrificing capability or performance.

1. "At a Glance: Electric Vehicles." U.S. Department of Energy: Office of Energy Efficiency & Renewable Energy, 2023. https://afdc.energy.gov/files/u/publication/electric-drive_vehicles.pdf 2. Based on EPA tailpipe rating. Visit fuelconomy.gov for more information.

Helpful Tools

Ford Pro™ is here to **support** businesses with practical tools and resources that can help **make the transition** to electric fleet vehicles easier.

Total Cost of Ownership Tools

Entering the future of mobility lets you take advantage of the **potential savings** on fuel and scheduled maintenance – plus **potential incentives** in the form of tax rebates, charger installation rebates, and other programs. It can all add up to a **positive impact** on your bottom line.

Use our calculators to help you make your decision.

[Get Started](#)

Ford Pro E-Switch Assist

A complimentary and easy-to-use tool that can help to determine which of your current F-150® pickups or Transit® vans are **ready to make the switch** to all-electric options like an F-150 Lightning® or E-Transit.™ E-Switch Assist calculates the daily charging needs of a Ford electric vehicle if it were to replace a gas or diesel vehicle in your fleet.

[Learn More](#)

Commercial Charging

Ford Pro™ has the **complete solution** for your commercial charging routine to help keep your drivers, and business, on the go.

Determine Your Daily Charging Needs

We can help you build a **daily charging solution** at your depot or drivers' homes, with guidance on how to find public charging when needed.

Regardless of how your fleet charges, we're here to **help finance** your electric vehicle infrastructure with site assessment, hardware, software, installation, servicing and more.

Depot

Home

Public

Choose Your Charging Solutions

Depot

- Scalable solutions that can **grow** with your fleet
- Outdoor and/or indoor installations

Home

- Gives employees the **convenience** of charging at home overnight or between shifts

Public

- BlueOval® Charge Network, North America's **largest integrated public charging network**,¹ gives drivers public charging options on-the-go with centralized billing

Interested in Ford Pro™ Charging? Just schedule a demo today!

[Schedule Now](#)

1. Based on active charging stations in OCPI data from Ford's CMS partners, generated on 2/11/2025. Numbers subject to change. FordPass® app, compatible with select smartphone platforms, is available via download. Message and data rates may apply.

Depot Charging

Let us help you plan, design and install **scalable charging solutions** that can grow with your fleet.

We can help you identify **the right Ford Pro™ chargers for your business**, based on your specific location, route schedules and fleet needs.

Ford Pro **simplifies the process** of gathering information about rates, incentives and rebates, then presents all relevant electric vehicle infrastructure enhancement information to your team.

Home Charging

Our available home charging options allow your drivers to take their electric fleet vehicles home after their shifts for charging to **help optimize uptime.**

Ford Pro™ Charging Software¹ can provide charging reports for drivers to submit business-energy expenses for reimbursement, and lets you monitor chargers offsite at employees' homes.

1. Ford Pro Charging Software subscription required. Chargers must conform to Open Charge Point Protocol (OCPP) 1.6-J industry standard and be Internet-connected. Ford Pro Charging Software is a subscription service subject to agreement to Ford Smart Mobility terms and conditions. Subscription subject to monthly charge. Subject to OFAC and credit check for subscription eligibility. Connected service and features, and access to vehicle and charger data depend on subscription and compatible cellular network availability. Evolving technology/cellular networks/vehicle and charger capability may limit functionality and prevent operation of connected features.

Public Charging

While we recommend fleets use depot and home chargers for daily charging solutions, we've **made public charging easy** to find and use when it's needed.

When you subscribe your electric vehicles to Ford Pro™ **Public Charge Management**,¹ you'll get:

- **Consolidated billing** for public charging of fleet vehicles into one monthly invoice.
- Access to the **BlueOval® Charge Network**, the largest integrated public charging network in North America.²
- The **Public Charging in-vehicle app**, which helps you find, activate and pay for nearby in-network charging – all on the vehicle's touchscreen.

Enroll Now!

Add Public Charge Management to begin the convenience of centralized billing.

[Sign Up Today](#)

1. Subscription required. 2. Based on active charging stations in OCPI data from Ford's CMS partners, generated on 2/11/2025. Numbers subject to change. FordPass® app, compatible with select smartphone platforms, is available via download. Message and data rates may apply.

BlueOval® Charge Network

Customers with Ford electric vehicles that are enrolled in Public Charge Management¹ have access to the BlueOval Charge Network, the **largest integrated public charging network in North America** offered by automotive manufacturers, with over 50,000 charging locations (over 180,000 chargers/plugs) and growing.²

This includes access to **the most DC Fast Chargers in North America** with over 44,000 and growing.² Some public chargers may require the use of an available North American Charging Standard (NACS) Adapter.

1. Subscription required. 2. Based on active charging stations in OCPI data from Ford's CMS partners, generated on 2/11/2025. Numbers subject to change. FordPass[®] app, compatible with select smartphone platforms, is available via download. Message and data rates may apply.

Public Charging App

Screens shown are subject to change.

Once enrolled in Public Charge Management,¹ drivers can access the Public Charging app through the vehicle touchscreen. It helps drivers search for nearby **chargers**, filter specifically for DC fast chargers, and check real-time charger availability and compatibility.

Drivers can activate and pay for charging sessions at in-network chargers – no fuel cards or driver reimbursement necessary. At Plug & Charge-compatible chargers, they can activate charge sessions **by just plugging in.**²

Enroll Today!

Sign up for Public Charge Management on the Marketplace at [FordPro.com](https://fordpro.com) and activate Cloud-Connected Navigation in order to utilize the full potential of the Public Charging app.

[Sign Up](#)

1. Subscription required. 2. Plug & Charge capability at Tesla Superchargers requires the latest software update. E-Transit™ requires dealership or mobile service appointment to receive the software update. Mustang Mach-E® and F-150® Lightning® require an over-the-air software update.

Understanding Electric Vehicle Chargers

The right charger type and vehicle is different for every business, dependent on their regular routes, daily charging solution and more. Our **charger and electric vehicle options** will help you figure out what's right for your day-to-day operations.

Chargers Built for Your Business

Ford Pro™ commercial-grade chargers can help your fleet's electric vehicles stay charged and ready for work.

- Preconfigured 4G LTE cellular connectivity
- 3-year limited warranty on parts and labor
- Field-serviceable cable allows for flexibility and replacement in case of damage

Ford Pro AC Chargers (Level 2)

These chargers work over several hours, making them a great choice for **overnight charging** at a depot or home. Regular use of AC Chargers can help maintain a vehicle's battery life.

Ford Pro DC Fast Chargers (Level 3)

These high-powered fast chargers are available for depots. They can charge in **under an hour** and are only recommended for occasional use.

AC Chargers (Level 2)

We offer two Level 2 AC Charging Stations with the main difference being the power output:

48A Series 2 (11.5kW)¹

80A Series 2 (19.2kW)¹

Both models have a color screen and RFID access control capability with an **improved cable and connector**, new **temperature sensors** and **monitoring**.

The 80A model charges properly equipped F-150[®] Lightning[®] and E-Transit[™] vehicles at a faster rate.

1. Power at a maximum rated current and 240 Volts Alternating Current (VAC). Power is reduced at 208 VAC.

DC Chargers (Level 3)

A.

Standalone DC Charging Station (60kW/120kW/180kW/240kW)

Can power 2 vehicles simultaneously. Optional RFID, optional credit card reader.

B.

DC Charging Cabinet (60kW/120kW/180kW)

Pairs with (C.) Industrial DC Dispenser

C.

Industrial DC Dispenser (300A, Single or Dual Output)

Requires (B.) DC Charging Cabinet

Can power 2 vehicles simultaneously. Includes two 300A, 20-ft. charging cables. Optional 25-ft. charging cables.

1. Charge time based on manufacturer computer engineering simulations. The charging rate decreases as battery reaches full capacity. Your results may vary based on peak charging times and battery state of charge. 2. Fleet configuration only, not available for retail sales. Fleet sales require an eligible VIN, see a fleet sales specialist for details. 3. Excludes Platinum™ models. Range and charge time based on manufacturer computer engineering simulations, tested values, and EPA-estimated range calculation methodology. The charging rate decreases as battery reaches full capacity. Your results may vary based on peak charging times and battery state of charge. Actual range varies with conditions such as external environment, vehicle use, vehicle maintenance, high-voltage battery age, and state of health.

Electric Vehicle & Charging Software

Intelligent software designed to help you manage your electric vehicles, charging solution, and much more.

Ford ProTM Charging Software¹

This subscription-based software helps you manage your Ford Pro chargers at your depot and employees' homes.

Benefits include:

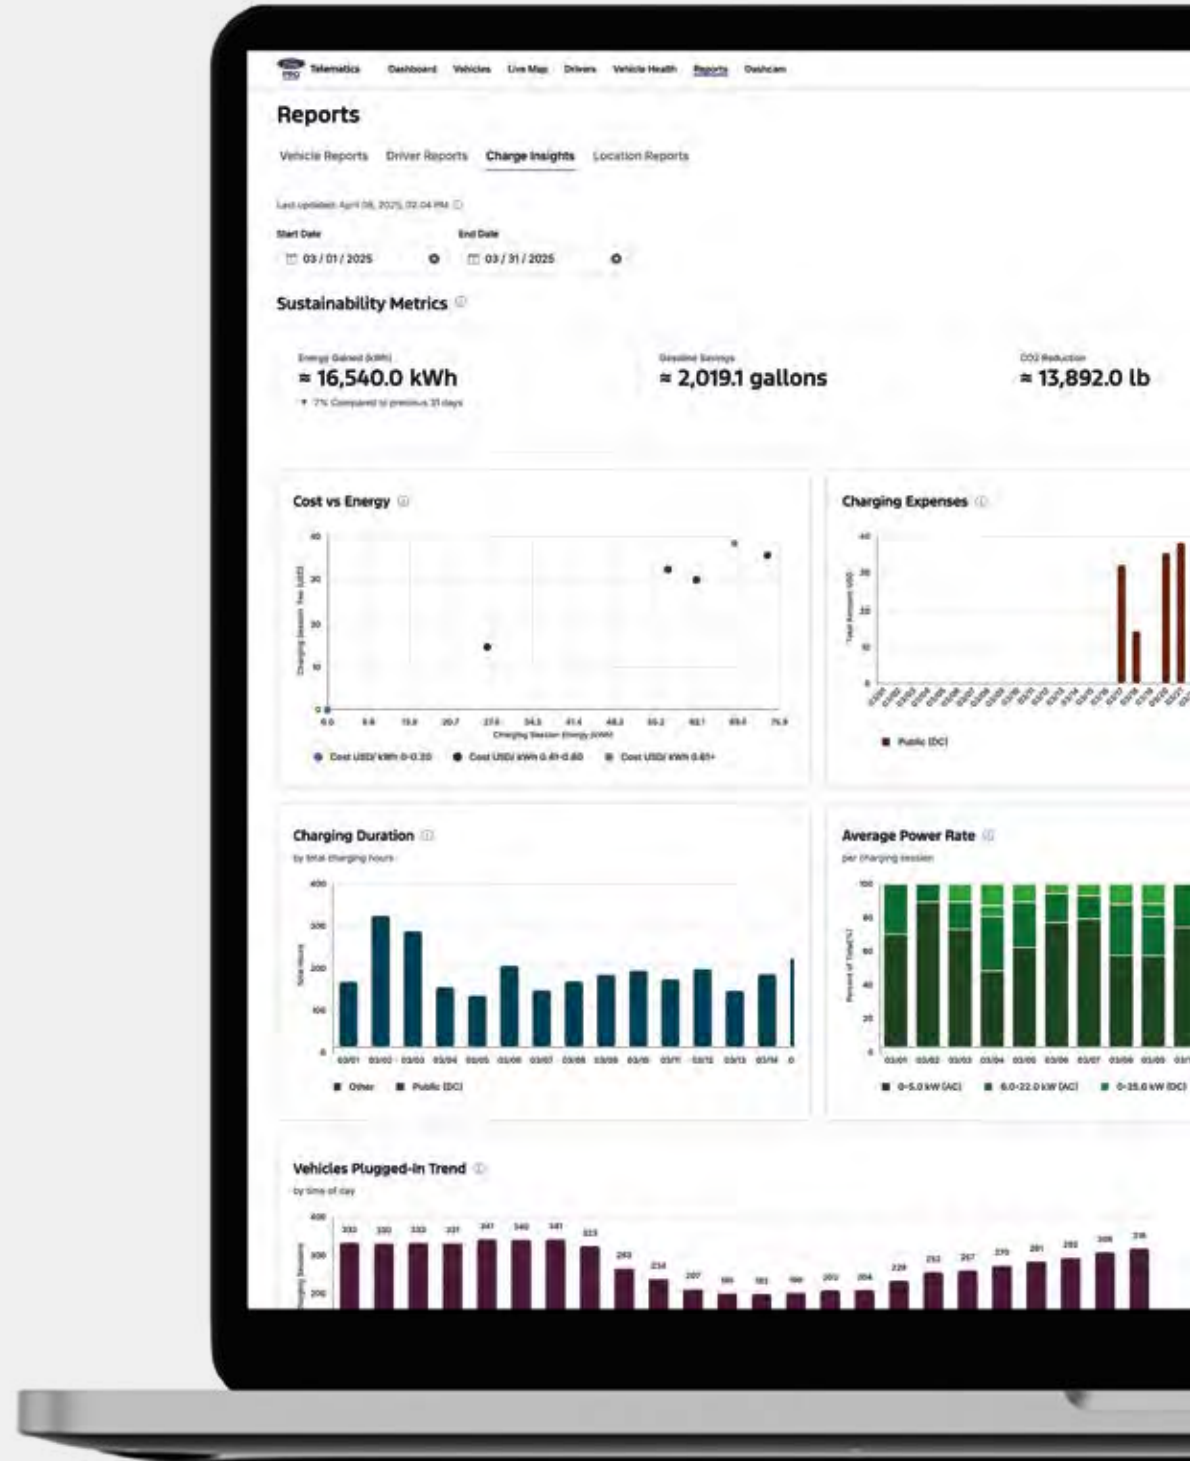

- Help reduce downtime and maximize productivity
- RFID access controls for advanced security
- Help reduce operational costs
- Set charge time and capacity remotely to avoid peak energy rates
- Help maximize charger uptime
- Access customized reports on energy dispensed, charging costs, faults and usage

1. Ford Pro Charging Software subscription required. Chargers must conform to Open Charge Point Protocol (OCPP) 1.6-J industry standard and be Internet-connected. Ford Pro Charging Software is a subscription service subject to agreement to Ford Smart Mobility terms and conditions. Subscription subject to monthly charge. Subject to OFAC and credit check for subscription eligibility. Connected service and features, and access to vehicle and charger data depend on subscription and compatible cellular network availability. Evolving technology/cellular networks/vehicle and charger capability may limit functionality and prevent operation of connected features.

Ford Pro™ E-Telematics¹

Unlock additional data and controls for Ford electric vehicles with E-Telematics. It shows **important vehicle and driver information**, including near real-time range and charge status, and includes features such as remote preconditioning controls and home-charging reimbursement tools.

1. Eligible vehicles (2022 and 2023 MY) receive a complimentary 3-year trial of E-Telematics services and eligible vehicles (2024 and 2025 MY) receive a 1-year trial that begins on the New Vehicle Warranty start date. Requires modem activation. Terms and conditions apply. Telematics service and features depend on compatible AT&T network availability. Evolving technology/cellular networks/ vehicle capability may limit functionality and prevent operation of connected features. Annual service contract is required for E-Telematics service after trial. Call 1-833-811-3673 or go to FordPro.com to activate E-Telematics service. Screens shown are subject to change.

Finance The Operation

Ford Pro™ FinSimple® can help **simplify** your business's unique financial needs and guide you to cost-saving incentives and financial plans.

Ford Pro[™] FinSimple[®]

Ford Pro FinSimple is a **one-stop shop** for your financial needs, streamlining complexities so you can stay focused on your business. It offers credit plans, and financing and leasing options for vehicles, chassis, and chargers for any type or size of business.

Customizable finance products can help your business thrive with 24/7 access to your account. View all your vehicle details and pay your bill in the way that works for you.

Get Financed Today!

Whatever the financing needs of your business, we can help.

[Get Started](#)

Commercial Line of Credit

Consider our Commercial Line of Credit (CLOC)¹ and you'll get the advantage of **flexible terms**, no setup or non-utilization charges, and availability for Ford Pro™ FinSimple® financing options for any size or type of business.

Credit Convenience

After you're approved for a CLOC, you can add vehicles to your fleet and get coverage year-round for all your financing or leasing needs.

No Hidden Fees

There are no fees to open a CLOC and no penalties or non-utilization charges.

Frees Up Capital

You can use your CLOC for vehicle purchases, and your bank lines for other business needs. With a dedicated line of credit from us, you can free up cash to invest in other parts of your business.

We're Here for You!

Apply for a CLOC and learn how our other commercial finance programs can benefit your business today.

[Apply Now](#)

1. Subject to credit approval, meeting eligibility requirements, and undergoing periodic reviews.

Vehicle Financing

CommercialLease¹

Take control of your lease with CommercialLease, an open-ended Terminal Rental Adjustment Clause (TRAC) that sets the residual to the terms that suit your business best. Residual-based financing offers cash flow benefits and, with options available for you at term, **you control what works for you.**

Commercial Installment Financing

Our traditional finance product covers a range of vehicles with flexible terms, no hidden fees, and the convenience of combined billing available for multiple vehicles within a fleet. **Sell or trade anytime**, with no early payoff charges.

Commercial Red Carpet Lease²

For predictable-use vehicles, this closed-end lease comes with **no residual risk**. Payments are usually lower than purchase financing and may allow for new vehicles more often. GAP Protection is available, and you are only responsible for any excess mileage and wear and use charges.

1. CommercialLease accounts are automatically enrolled in combined billing, assuming all your due dates are the same.
2. Commercial Red Carpet Lease is not available for every vehicle use (e.g., livery and modified vehicles).

Charging Infrastructure Financing

Are you ready to electrify your fleet? From EVs to charging stations, **we're ready to help you** get the products and services to maximize your fleet performance and your bottom line.

You can finance **up to 100%** of qualifying costs including, but not limited to:

- Charging equipment and software
- Site planning, construction and installation
- Labor and servicing
- Extended service plans
- Applicable fees

The loan application process is handled online and will help you establish a predetermined line of credit that can easily be adjusted.

Construction and non-construction loans are available.¹ Interest-only payments are available during the construction period.

Get Help Going Electric!

Contact a Ford Pro™ FinSimple® representative to get help with your electric vehicle infrastructure financing.

Manage Your Fleet

At Ford Pro,[™] we know that vehicle downtime equals lost revenue. That's why our goal is to keep your vehicles on the road, by combining advanced software with exceptional service to help **improve uptime and potentially lower costs.**

The Power of Connectivity

The **Ford Pro™ Intelligence platform** connects the many digital tools Ford Pro offers to give you a comprehensive view of your fleet's information.

By simply activating the vehicle's embedded modem, data flows to the fleet manager via Ford Pro Telematics¹ to give you vital **vehicle health information**. Then it connects to dealers and Ford Pro agents, helping maximize your uptime by expediting parts and service if a vehicle is down.

1. Available on vehicles with embedded modem or equipped with approved plug-in device (PID). May require modem activation. Ford Telematics and Ford Data Services require a purchased subscription. Terms and conditions apply. Telematics service and features, and access to vehicle data, depend on subscription and compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features.

Ford ProTM Service Options

Mobile Service¹

- **4,050+ Mobile Service Units** ready to provide onsite service
- Maximizes uptime by eliminating drive/wait times
- All makes/models, can service multiple vehicles in one visit

Commercial Vehicle Centers (CVC)

- **730+ CVC dealers**
- Trusted experts for commercial customers
- Service for all makes and models
- Mobile Service offerings

Elite Commercial
Service Centers

Open for service 60+ hours/week with teams of expert technicians.

These elite facilities **operate 6 days a week** with extended hours, and have service bays **dedicated to Class 1-7 commercial vehicles**, medium-duty service and express service.

They meet electric vehicle facility standards and requirements, feature Ford and Motorcraft® parts, and have Ford factory-trained technicians. Elite facilities are open now, with more to come in the next few years.

Parts & Service Programs

Ford Pro™ Fleet Care

Consolidated billing and **approved spending** limits can help reduce paperwork and stress – even if you service multiple vehicles, in multiple locations, you'll only have to make a single payment.

National Fleet Parts Pricing

Available on eligible parts sold or used at U.S. Ford dealerships for qualifying fleets of 50+ vehicles, our pricing can help **bring down service costs**.

Ford Pro Parts Loyalty Rewards¹

Earn rewards while maintaining your fleet. You can **unlock major savings** on Ford, Motorcraft®, and Omnicraft™ parts purchases, plus get instant powertrain discounts on new or remanufactured diesel engines, gas engines, and transmissions at time of purchase. Join at no cost – no hidden fees or strings attached.

1. Ford Pro Parts Loyalty Rewards is a parts-only incentive program available to participating fleet customers in the US. Earn up to 8% earnback on an annual basis. Applies to the purchase of eligible parts and/or when those eligible parts are included in a purchased vehicle service within the established guidelines of the program. Incentive percentage earnback is based on a calculation of the customer's previous year's total parts purchases and the customer's parts sales growth in the specific program period.

Connected Software Solutions

Whether you have a large or small business fleet, the Ford Pro™ Intelligence platform offers a full range of **powerful solutions** to give you the **insights** you need, just when you need them. Monitor your vehicles in real time and get performance insights to help streamline your operations.

Screens shown are subject to change.

Ford ProTM Telematics¹

Our user-friendly dashboard helps you see how your fleet operates with **real-time data**.

With an available Ford Pro Telematics subscription, you'll get a **suite of intelligent features** designed to help you streamline your workflow, maximize uptime and increase efficiency. It also includes a mobile app for fleet managers and drivers to simplify day-to-day operations, manage vehicle health data, stay up to date with recall notifications, and much more.

Schedule a Demo!

Screens shown are subject to change.

Dashcams

Get concrete benefits for your business with the powerful combination of dashcam video and Ford Pro™ Telematics data.¹

Optional dashcams let you view video from inside and outside the vehicle to **detect driving events**, even in the event of an accident – expanding fleet visibility, reinforcing good driving, and helping reduce potential costs. Data feeds right into the software for you to leverage with drivers and insurance agencies, if needed.

[Learn More](#)

1. Available on vehicles with embedded modem or equipped with approved plug-in device (PID). May require modem activation. Ford Pro Telematics and Ford Pro Data Services require a purchased subscription. Terms and conditions apply. Telematics service and features, and access to vehicle data depend on subscription and compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. An additional subscription is required for activation of Ford Pro Telematics with Dashcam. Terms and conditions apply. Screens shown are subject to change.

Add-Ons

Help **optimize driver performance** and help **protect your business** with optional add-on features for Ford Pro™ Telematics, including vehicle security alerts, in-vehicle coaching, speed limiting and acceleration limiting, all available through the Marketplace at **FordPro.com**.

Vehicle Security Alerts

Use the **preconfigured security alerts** to find out about impacts and towing at ignition off, and unauthorized vehicle entry and movement. These features are complimentary for paid Telematics subscribers.

In-Vehicle Coaching

To **encourage real-time correction** of certain driving behaviors, this audible alert system allows you to set custom parameters for speeding threshold, acceleration sensitivity, idling duration and more. Fleet managers have seen impressive results using In-Vehicle Coaching, including a **25% reduction in speeding instances**,¹ **16% less hard braking and 11% less hard acceleration**,² and **52% lower average excessive idle minutes** per trip.³

Top Speed Limiter⁴

Designed to promote smart, responsible driving habits, this optional Ford Pro Telematics software feature allows fleet managers to **set a maximum speed** that limits how fast a vehicle can travel. Once vehicles are enrolled in Telematics, fleet managers can set a Top Speed Limiter on one vehicle at a time, or adjust an entire fleet at once. No additional vehicle hardware required.

Acceleration Limiter⁴

Fleet managers can **set acceleration limits** to promote smooth acceleration and prevent drivers from accelerating harshly. Once vehicles are enrolled in Telematics, managers can enable this feature remotely through the software. Set one vehicle at a time, or multiple vehicles at once. No additional vehicle hardware required.

1. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 25% lower average speeding over the limit events per trip, with the Speeding Over Threshold setting enabled. 2. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 16% lower harsh braking and 11% lower rapid acceleration with the Hard Braking and Hard Acceleration settings enabled. 3. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 52% lower average excessive idle minutes per trip, with the Excessive Idle setting enabled. 4. Available on select models. See dealer for details.

Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. For E-Telematics, eligible vehicles (2022 and 2023 MY) receive a complimentary 3-year trial of E-Telematics services, and eligible vehicles (2024 and 2025 MY) receive a 1-year trial that begins on the New Vehicle Warranty start date. Annual service contract is required for E-Telematics service after trial. Call 1-833-811-3673 or go to FordPro.com to activate E-Telematics service.

Ford Pro™ Data Services™

If you already have a preferred telematics service provider, you can use Ford Pro Data Services¹ to **make the most of** your modem-equipped Ford vehicle data.

Ford Pro Data Services transmits vehicle data to your apps, so you can **gain actionable insights** for your fleet. This manufacturer-grade data includes driver behavior, trip reports, as well as vehicle status, location and health, and is delivered through our API (Application Programming Interface) to your business system or to a growing range of telematics service providers. Subscription tiers let you refresh data on your preferred schedule.

Manufacturer-Grade Data

Get vehicle health data such as tire pressure and sensor faults, and driver behavior data like harsh braking, excessive idling and safety belt alerts.

Embedded & Secure

Hardware that transmits vehicle data is integrated, and can't be unplugged, knocked loose or misplaced.

Telematics Service Providers²

Our API (Application Programming Interface) delivers data to an existing system or provider.

Sign Up Now!

Take confidence knowing that the vehicle data transmitted by Ford Pro Data Services is encrypted and secure.

[Get Started](#)

1. Available on vehicles with embedded modem or equipped with approved plug-in device (PID). May require modem activation. Ford Telematics and Ford Data Services require a purchased subscription. Terms and conditions apply. Telematics service and features, and access to vehicle data, depend on subscription and compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. 2. Authorized service providers subject to change.

Fleet Management

Ford Pro™ Fleet Management can help **simplify** your business operations and also allows you to pick and choose the solutions that **fit your needs**.

Fleet Management Solutions

Using the power of the **Ford Pro™ Intelligence** platform, we've found ways to help businesses automate fleet operations, helping make your day-to-day work more efficient.

These Solutions Include:

- Tracking fleet data in one place to uncover potential cost reductions
- Helping optimize vehicle cycling based on asset trends
- Helping you understand your total cost of ownership

Key Features Include:

- Preventive maintenance scheduling with reminders
- Customizable inspections and forms
- Issue management for visibility of needed repairs
- Service history, including detailed maintenance records and associated costs
- Automated outsourced maintenance through our verified network of Ford Commercial Vehicle Centers and national and independent U.S. shops

Fleet Management Services¹

Accident Management¹

- Handles first notice of loss and management of the repair process
- Provides post-accident subrogation services including optional rental coverage

Driver Risk Management¹

- Uses single-source, 50-state Motor Vehicle Records (MVR) data
- Monitor drivers to help ensure valid license
- Optional Driver Training courses

Fleet Administration¹

- Outsources day-to-day tasks
- Includes services like data validation, uploads and auditing, policy creation and updates, reporting and analysis, inventory management, and billing management

Fuel Cards¹

- Shows you how, where and when drivers use their fuel cards
- Lets you set spending limits, track expenses, and help curb misuse

Maintenance Management¹

- ASE Certified Master Technicians review and negotiate repair orders, helping you get fair pricing and a timely resolution at 90,000+ repair shops in the maintenance network

Title & Registration¹

- Skips registration lines in all states
- Provides expedited service, frees customers from administering vehicle title/registration, state transfer, title search duties and renewals

Toll & Violation Management¹

- Offers interoperability among toll authorities and backup toll coverage to prevent toll violations
- Consolidates toll management, payments and toll violation administration into a single solution to save time and cost

Vehicle Movement & Storage¹

- Our team of experts can help move your vehicles from Point A to Point B
- Additional services include detailing, maintenance, registration and title transfers, and short-term storage if needed

Protect Your Assets

Your fleet and business are **top priorities** for Ford Pro.™ Let's make sure your peace of mind stays intact with the help of warranties, specialized auto insurance from **The American Road Insurance Company**, and more.

Ford ProTM Insure¹

Commercial auto insurance from Ford subsidiary
The American Road Insurance Company

Protect your business with **commercial auto insurance** made for your entire fleet – both **Ford and non Ford vehicles**.

No matter what kind of work your fleet vehicles are used for, they need coverage that's comprehensive, affordable and efficient. Ford Pro Insure can help do all of that and offer discounted rates when you use certain Ford Pro Intelligence products. This can help with your bottom line and help keep your vehicles secure during every shift.

[Check Eligibility](#)

1. Ford Pro Insure is a brand of commercial auto policies issued by The American Road Insurance Company ("TARIC") (NAIC 19631), an admitted insurance carrier and subsidiary of Ford Motor Company and Ford Credit. Information provided is subject to TARIC's privacy policies (FordPro.com/privacy). Not available in all states and situations. Coverage subject to policy terms and conditions.

Warranty Information

Things happen, and Ford knows that. It's why the following warranties are available to support your hardworking Ford Pro™ vehicles:

5-Year/100,000-Mile Commercial Vehicle – Gas Powertrain Warranty¹

Commercial customers with a valid Fleet Identification Number (FIN) receive a 5-year/100,000-mile² powertrain warranty on select vehicles.

Hybrid/Electric Vehicle Unique Components Warranty¹

For specially designed hybrid/electric vehicles. Coverage lasts for 8 years or 100,000 miles² from the Warranty Start Date, and covers components like high-voltage batteries, onboard chargers, DC/DC converters, and more.

Protection Technology

Ford Pro™ Telematics¹ and the tools in the Ford Pro Intelligence platform can potentially help **increase fleet productivity and efficiency**, and certain enhancements are available that can help protect businesses and drivers:

Dashcams²

Help protect your business from false claims and boost productivity with the ability to monitor driver performance.

Acceleration Limiter⁶

Fleet managers can set acceleration limits to promote smooth acceleration and prevent drivers from accelerating harshly. Set one vehicle at a time, or multiple vehicles at once – no additional hardware required.

In-Vehicle Coaching

This audible alert system monitors driver behavior in real time. Set custom driver parameters like speeding threshold, idling duration and acceleration sensitivity to potentially see impressive results like a 25% reduction in speeding instances,³ 16% less hard braking and 11% less hard acceleration,⁴ and less idling with 52% lower average excessive idle minutes per trip.⁵

Top Speed Limiter⁶

Fleet managers can set the limit at 65, 70 or 75 miles per hour. Once vehicles are enrolled in Telematics, fleet managers can set Top Speed Limiter on one vehicle at a time, or adjust an entire fleet at once simply by using the software. No additional hardware is required.

1. Available on vehicles with embedded modem or equipped with approved plug-in device (PID). May require modem activation. Ford Telematics and Ford Data Services require a purchased subscription. Terms and conditions apply. Telematics service and features, and access to vehicle data, depend on subscription and compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. 2. Available on vehicles with embedded modem or equipped with approved Plug-In Device (PID). May require modem activation. Ford Pro Telematics, Ford Pro Data Services and Ford Pro Telematics with Dashcam each require a purchased and/or additional subscription. Terms and Conditions apply. Telematics service and features, and access to vehicle data, depend on subscription and compatible AT&T network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features. For E-Telematics, eligible vehicles (2022 and 2023 MY) receive a complimentary 3-year trial of E-Telematics services, and eligible vehicles (2024 and 2025MY) receive a 1-year trial that begins on the New Vehicle Warranty start date. Annual service contract is required for E-Telematics service after trial. Call 1 (833) 811-3673 or go to FordPro.com to activate E-Telematics service. 3. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 25% lower average speeding over the limit events per trip, with the Speeding Over Threshold setting enabled. 4. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 16% lower harsh braking and 11% lower rapid acceleration with the Hard Braking and Hard Acceleration settings enabled. 5. Based on Ford Pro Telematics data June 1, 2024-Feb. 12, 2025. 52% lower average excessive idle minutes per trip, with the Excessive Idle setting enabled. 6. Available on select models. See dealer for details.

Opening the Door to Lower Insurance Costs

In addition to the many protection benefits that come with using Ford Pro™ Insure and Telematics, we're also keeping your wallet in mind. Both **Ford Pro Insure** and **Telematics** could lead to **lower insurance premiums** for your business.

Access to data through the Ford Pro Intelligence platform can help manage drivers with speeding, seat belt usage, distracted driving and more – and could help reduce accidents and insurance costs.

We're Your Shortcut to Driving Uptime

Ford Pro™ is the **Productivity Accelerator** your business needs to thrive.

Between our vast lineup of commercial vehicles, multiple tools to help manage your fleet, plus financing and protection options – we're equipped and committed to drive uptime for all kinds of fleets.
