

Ford ProTM Fleet Management Services: Driver Risk Management

Manage the Possibilities

Protecting your drivers, monitoring your fleet risk profile and increasing driver satisfaction is all possible with a subscription to [Driver Risk Management](#),¹ a Ford Pro™ Fleet Management Service.

There are liabilities that come with drivers operating on suspended or expired licenses, or when their infractions go unreported to employers. But with continuous **Motor Vehicle Record (MVR)** monitoring, Driver Risk Management gives you access to software that provides alerts to help identify at-risk drivers, and allows you to assign optional targeted driver training courses. You'll be notified of driver issues, such as:

- ▶ License status changes (valid, suspended, expired, etc.)
- ▶ Violations (infractions, traffic tickets, etc.)

Driver Risk Management is the solution that can help fleet managers proactively identify high-risk behaviors, reduce incident rates, and potentially lower cost of ownership.

1. Subscription required. See Ford Pro representative or Ford dealer for details. Terms and conditions apply.

Let's Get to Work

Ready to make the most out of your Ford Pro™ Intelligence products? Help your business gain a competitive edge and **let us handle the busy work.**

If you don't already have it set up, you can get access to **Driver Risk Management** by:

- ▶ Contacting your **Ford Pro Representative**
- ▶ If you don't have a Ford Pro Representative, call **1-800-34-FLEET** (1-800-343-5338) to get started
