Ford Pro™ AI

Fast, Direct Answers via Conversational Assistant

Powered by Ford Pro™ Intelligence, **Ford Pro AI** is a software capability made to quickly summarize your Ford Pro Telematics¹ fleet data and gain actionable insights. You’re able to ask questions and get answers without interrupting your workflow to hunt for information.

1. Available on vehicles with embedded modem or equipped with approved plug-in device (PID). May require modem activation. Ford Pro Telematics and Ford Pro Data Services require a purchased subscription. Terms and conditions apply. Telematics service and features, and access to vehicle data, depend on subscription and compatible cellular network availability. Evolving technology/cellular networks/vehicle capability may limit functionality and prevent operation of connected features.

From Insights to Action

Ford Pro AI takes your existing fleet data and turns it into insights you can act on. That means less time looking up answers, and more time managing your business.

Vehicle Health and Maintenance

Knowing signals and exceptions can lead to faster follow-up and increased uptime

Driving Behavior

Identifying patterns can support coaching and responsible day-to-day operations

Vehicle Utilization

Spotting underused or high-mileage vehicles can optimize allocation and correct fleet size

Trip History

Noticing off-hours use, vehicles outside of defined areas, and dwell time can improve operational visibility
